Blagoevgrad, BG
2007 - 2011

American University in Bulgaria
BA Communication Design

ABOUT ME

I'm a firm believer of process-driven design. My work is informed by an insatiable thirst for knowledge and insight into the mind of the end user.

I believe I work best when following a well structured design and product roadmap. I'm not afraid to experiment and invalidate my own assumptions. My one promise to myself is to never stop learning.
